How to view 4 price charts at the same time, firstly of the same stock, and then of different stocks. 2. There can be complications with viewing 2 or more charts of the same stock and the same time period (ie. daily, or weekly, etc.). This is to do with IntelliCharts. 3. How to easily view the 4 price charts using a different Template for a different "study" of the stock's price (eg. Weinstein study). 4. How to view the price chart(s) of the stocks in a Watchlist. 5. How to set up and save the entire appearance of the BullCharts window, comprising 4, for example, price charts (Workspaces). <p>Next month: TBA</p> <p>About this segment: It is common with any feature-rich software product for most users to master less than about 20% of the available features. Among the remaining 80% or so of the product, there is likely to be a number of useful features that users would like to use, if only they knew about them.</p> <p>[Past presentations can be downloaded from this BCUG Presentations folder.]</p>	30	Robert and all
