

Share Market Price Charts Unlocking the Secrets

Technical Analysis* Overview — 1-day seminar

Investing or trading in the financial markets?
Looking to be more profitable?
Wanting to minimise the losses?

Share market price charts summarise the
underlying opinions and emotions of the market participants.
Every chart tells a story.
It pays to understand the stories in the price charts.

Like this sample price chart:-

With a little understanding you can work out the best time to invest,
and a good time to sell — using basic *Technical Analysis**.

The independent ATAA* is running a one-day introductory
seminar to provide a complete overview of this subject.

**Gain an introductory-level understanding of
how to read and analyse share price charts:-
up trends, price chart indicators, Simple Moving Average,
chart patterns (triangles, double top, head and shoulders)
and the importance of daily/weekly volume.**

You will learn how to read the secrets hidden in the price charts.

- ✓ Saturday 12 May 2018 — 10am to 5pm
- ✓ Function venue in Vermont South, Melbourne
(free parking available)
- ✓ ATAA members: \$395; non-members \$495
- ✓ Includes: 110+ page hand book, and light lunch.

* — Technical Analysis:- The systematic
method of analysing financial instruments
(eg. company shares) using only market-
delivered information such as price,
volume, volatility and open interest.

**Seminar places are limited, so early registration is encouraged.
To register, see details on the back of this flyer.**

***“The best time to prepare for the next bull market
is before the bulls have bolted.” — Robert Brain***

About the sample price chart above:- Candlesticks ABY weekly. Jan-Oct 2009. 30 week SMA, 14 week VMA.
Price consolidation until breakout April 2009. Big White candle. Price up 800+% in 6 months.
No guarantees. The outcomes are often different.
