## Picking winners?

How do we find today's market?

- Is it a bull market?
- Is it a bear market?
- If neither, then what is it?
- Let's look at the index since October 2009 . . .

## Are there any winners?

- Is it possible to pick winners in this market?
- How about "searching" for "rising" stocks?

Following is an example:

**Search for criteria:**

- On a weekly chart
- Look for a stock with the 15-week Moving Average rising for at least 3 weeks
- Also the 30-week MA rising for 3+ weeks.
- List them!!
- As at last Saturday . . .
